NOTICE TO PRODUCERS

Due to increased demand and growth, SaskMilk is implementing a **quota increase of 1.75% effective December 1, 2014.**

We recognize that producers have done an excellent job of increasing production in response to the significant increases over this past year, and we need it to continue. As was presented at the Producer meetings, both the province and the western pool need additional production to meet national requirements. Your best effort to fulfill your obligation and meet your quota production requirements and incentive days is critical to maintaining Saskatchewan's share of the national pool.

If you have any questions, please do not hesitate to contact Directors of the Board or the SaskMilk office. Director contact information is available in the monthly newsletter and on the website at <http://www.saskmilk.ca>.
