2021 Fall Producer Meetings Recap & AGM Update

The 2021 Fall Producer Meetings were held virtually in two sessions on the morning of October 6th and the afternoon of October 7th.

In preparation for the meetings, recorded presentations by the Chair (Matt Flaman), the General Manager (Peter Brown), and the Chair of the Western Milk Pool (Henry Holtmann) were uploaded to the producer-only section of the producer portal. In addition, various staff reports were posted in advance for review.

Presentations and reports are still posted for any producers who may not yet have seen them. The discussions during the meeting included questions regarding the DIW project, the new PLR Agreement, the new quality penalties and bonuses, issues with demand and impacts of trade agreements, marketing and expenditures, blend price, and milk price adjustments. A brief overview of the Q&A is also now available on the producer portal.

The Board thanks all producers who attended the meetings and hopes to see everyone at the virtual AGM this year on December 8th.

Mental Health Spotlight

Other Ways to Check in Besides Asking “How Are You Doing?”

Written by Lesley Kelly

The question “How are you?” has long been a go-to greeting, a way to spark a bit of small talk. It comes from a place of good intentions, but rarely does the recipient reveal much, if anything, about how they’re actually doing – even if we sincerely want to know the answer or can see or sense that something is bothering them. We typically respond with how we feel we should respond, rather than answer honestly.

This year, as our lives have been impacted by a myriad of challenges – Covid-19 pandemic, extreme weather, political stress, and more – we have an opportunity (and need) to deepen our connections with others. So if it’s an honest answer you’re after, try a different question. By changing up your phrasing, you can send the message that you’re looking to have a deeper conversation – not just exchange pleasantries. And asking more meaningful questions can help spark those productive, compassionate conversations.

To help the other person open up and share how they are actually doing, they need to feel that the other person truly wants to know the real answer. Be curious and interested in what they are experiencing and thinking about. Because the simple truth is - we all have feelings. Some of them are happy. Some are uncomfortable. Some are straight-up painful. Hiding how we really feel is denying ourselves a basic part of the human experience: To feel a full spectrum of emotion.

When someone is struggling, it can be difficult for them to open up. By genuinely being interested, showing them that you really want to know what they are going through, you can help that person immensely, just by asking different questions.

Here are some alternatives to the generic “how are you” that are more likely to elicit a candid answer:

- How are you holding up?
- I’ve been thinking about you a lot. How are you doing?
- What is on your mind (or worrying you) at the moment?
- What are you struggling with most at the moment?
- What are you doing to care for yourself right now?
- What would you like to change in your life right now?
- What’s helping you cope at the moment?
- What do you think your next steps are?
- What can I do to support you at the moment?

Another way to encourage them to open up? Lead by example: By being vulnerable about your own mental or emotional state, you may prompt your loved one, friend or neighbour to talk more openly about theirs. And if they’re still not opening up to you, that’s okay. Just checking in and asking a few supportive questions shows your deep care and concern – and that alone is powerful.

If you or someone in your family or farm team are going through a hard and stressful time, reach out and call the Saskatchewan Farm Stress Line at 1-800-667-4442.

Do More Ag was established in 2018 to promote mental health awareness, well-being, and research; as well as to empower producers to take care of their mental health through education, training, and public awareness. The foundation is also dedicated to creating a community of belonging, support

NSERC Research Updates

Dr. Herman Barkema
Dr. Jeroen De Buck

You are invited to attend Drs. Herman Barkema and Jeroen De Buck's NSERC research updates on November 19, 2021 from 11am – 1pm MST. Please join us to hear the latest updates of our research groups and join in a conversation about Mastitis-related antimicrobial use, the development of a Johne's Disease vaccine, vet-farmer communication and more! This meeting will be geared towards dairy producers with ample time for discussion. We look forward to seeing you in November.

AGENDA

- Update: Jeroen De Buck's Research Chair in Bacterial Diseases of Dairy Cattle
- Update: Herman Barkema's Research Chair in Infectious Diseases of Dairy Cattle
- Ben Caddey - Bacterial factors of digital dermatitis
- Razieh Eshraghi – Developing and testing a live attenuated Johne's disease vaccine
- Ellen de Jong and Kayley McCubbin – Mastitis-related antimicrobial use: Current practices on Canadian dairy farms
- Linda Dorrestein – Communication between veterinarians and dairy farmers

Please click [here](#) to register. Contact Anne-Marieke Smid at annemarieke.smid@ucalgary.ca if you have any questions or would like further information about the session.

Nov 19, 2021 | 11am-1pm MST

Online - Zoom

RSVP deadline: Nov 16, 2021

Quota Exchange

The market-clearing price established for the October 2021 Quota Exchange was \$42,250.

The next Quota Exchange will be held on November 15, 2021. All offers to sell and bids to purchase quota through the Quota Exchange must be submitted by midnight, November 6, 2021. SaskMilk recommends that offers and bids be submitted well in advance of the deadline date to ensure adequate time for corrections, if necessary.

When making bids on the Quota Exchange, the price on offers to sell quota is the minimum price that the producer is prepared to accept for that quota. Only if the market-clearing price is equal to or greater than the producer's minimum price will that producer qualify for participation in the Exchange. Conversely, the price on offers to purchase quota is the maximum price that the producer is prepared to pay for that quota. Only if the market-clearing price is equal to or less than the producer's maximum price will that producer qualify for participation in the Exchange. The clearing price is set at the price where the smallest difference exists between the accumulated volume offered for sale and the accumulated volume bid to purchase. The results of the Quota Exchange are outlined in the following table.

OCTOBER 2021 QUOTA EXCHANGE RESULTS

Market Clearing Price per kilogram of butterfat	\$42,500

Cover Cropping on the Canadian Prairies (Webinar)

The Manitoba Beef and Forage Initiatives is hosting the upcoming webinar on November 3rd at 8pm CDT discussing the results of the Prairie 2020 cover crop survey. The report itself will be released next week.

They heard from 281 farms who grew over 100,000 acres of cover crops. They learned about their agronomy, their challenges, and the benefits they have seen. 37% of respondents were from Manitoba, **32% from Saskatchewan**, and 31% from Alberta. **4% of farms that responded had dairy cattle as part of their farm business.**

In September, Saskatchewan had a monthly CDC allocation of **1,128,294 kilograms** of butterfat. Saskatchewan production was **98,578 kgs** of butterfat under and cumulatively over by **871,045 kgs** of butterfat. On a percentage basis, Saskatchewan is **6.96%** above our CDC allocation flexibility limits based on the Continuous Quota model. The -2.00% lower flexibility limit is in effect.

JOIN THE GAMES!

February 20 - 26, 2022

The Saskatchewan Winter Games is looking for 1,000 + local volunteers who are passionate about their community!

The year 2022 will mark the 50th anniversary of the Saskatchewan Games -- and this will be an event to remember, with more than 1,800 athletes, coaches and officials gathering in Regina to share in the thrill of competition and camaraderie on the provincial stage.

Volunteers are required in the following areas:

- Athlete Experience
- Ceremonies and Culture
- Food Services
- Logistics & IT
- Marketing & Communications
- Medical Services
- Safety & Security
- Sport Events
- Venues
- Volunteer Coordination

For more information and to read the volunteer descriptions, visit our [website](#). If you are interested in volunteering, please [register online](#).

Volunteer roles are available for people of all ages, abilities, and accessibilities, so we hope you'll join us in celebrating 50 year of the Saskatchewan Games and help us welcome the entire province to our backyard!

For more information and to read the volunteer descriptions, visit <https://saskgames.ca/winter/volunteer>

If you are interested in volunteering, please [register online](#)

Are you attending the Advancing Women in Agriculture Conference 2021?

The Advancing Women in Agriculture Conference is created for every woman who is passionate about agriculture and food, whether you are a university or college student studying agriculture, producer, rancher, entrepreneur, representative of a grower association or corporate agribusiness. AWC is for women who want to enhance their family life, community, career, and industry through:

- ' communications through coaching, mentoring, and networking
- ' financial management and independence
- ' health and balance of life strategies
- ' career planning, and
- ' setting goals in all areas

AWC has a proven track record of bringing women in agriculture and food together from across Canada and parts of the U.S. AWC is proud of the quality of speakers that we bring to the podium, including business experts, motivational and inspirational leaders, and industry representatives.

Visit www.advancingwomenconference.ca
to learn more and register today!

DFC Update

DFC Welcomes Lactalis Canada's Historic Balderson Cheese Brand to the Blue Cow Family

DFC's iconic Blue Cow logo will soon appear on Balderson cheese products as the brand celebrates 140 years of Canadian heritage. In adopting the Blue Cow logo on this historic and beloved brand, Lactalis Canada is helping consumers recognize products made with 100% high-quality, nutritious Canadian milk, produced in accordance with some of the most stringent standards in the world.

As one of the nation's leading dairy processors, Lactalis Canada first began adopting the Blue Cow logo in 2018 and has since committed to rolling it out on hundreds of milk, cream, cheese and cultured products under the **Lactantia, Beatrice, Black Diamond, Cracker Barrel, P'tit Quebec, Astro and Stonyfield** yogurt brands. With Balderson joining this line-up, the Blue Cow will appear on over 40 additional products starting in the Spring 2022.

The Blue Cow logo will also appear on Lactalis Canada's digital advertising and in-store (point-of-sale) signage, as well as in Balderson's first national television media campaign beginning October 4 and aptly named "The Old Ways." The campaign is a celebration of the brand's enduring Canadian craftsmanship, centring around the notion that nothing ages as well as Balderson Cheese has over the last 140 years.

"Lactalis Canada's decision to feature the logo on Balderson products as the brand celebrates this significant milestone speaks volumes about the trust consumers, processors and retailers have in our practices," said Pierre Lampron, President of Dairy Farmers of Canada. "We are thrilled to expand our partnership further."

August Quality Bonus

To get the quality bonus producers must have:

Monthly Average:

IBC - $\leq 30,000$ / ml

SCC- $\leq 250,000$ /ml

FpT- lower than -0.525° Hortvet

No positive inhibitors

Classified Ad Service

SaskMilk offers a free classifieds service as part of its newsletter. Anyone wishing to place an ad is welcome to contact the SaskMilk office at (306) 949-6999 or info@saskmilk.ca. All negotiations will be independent of SaskMilk. Please note that ads will be posted in two issues and will then be removed unless SaskMilk is notified otherwise.

I have two Delaval Tank cooler compressors
1 is totally rebuilt with new rad
2nd was repaired with no leaks right before being replaced.
Contact Luke Bruinsma (306) 713-0776 for more information or pictures.

I am looking for a dairy producer that brings in the large containers of milk stone remover for cleaning out milk lines and would be willing to sell me about 4 litres. I am willing to drive anywhere within a radius of 150 miles to purchase it. I am 110 miles east of Saskatoon and 120 miles north of Regina and 90 miles southeast of PA with no dairy farms close by.

Mrs. Charlotte Berthold
Box 81
