SaskMilk Summer Events: Volunteers Welcome!

Coming into summer 2022, SaskMilk is excited to sponsor so many wonderful events in the community! With the full and busy schedule, SaskMilk is inviting producer volunteers to attend these events.

On page 15 of the newsletter, you will find the updated events calendar, where the SaskMilk marketing team has indicated that volunteers are welcome. Attending events is a great way to connect with the public and to put a face to the farmers behind SaskMilk.

Currently, SaskMilk is looking for volunteers at Taste of Saskatchewan on the following dates:

- Friday, July 15th**
- 2 people from 11:00 am to 4:30 pm
- 3 people from 4:30 pm to 10:00 pm

- Saturday, July 16th**
- 3 People from 11:00 am to 4:30 pm
- 3 People from 4:30 pm to 10:00 pm

- Sunday, July 17th**
- 2 People from 11:00 am to 4:00 pm
- 2 People from 4:00 pm to 9:00 pm (help with take down) drop off items at U of S Barn

If you would like more information, or if you are interested in attending, please email Chelsea at cwilcoxen@saskmilk.ca.

Mental Health Spotlight

Setting and Maintaining Boundaries for Your Mental Health

By Lesley Kelly, Farmer and Co-Founder of the Do More Agriculture Foundation

Our personal boundaries aren't as obvious as some of the boundaries we have on the farm, like a tree line protecting the farm from the wind, a fence keeping livestock in, or a "no trespassing" sign at an approach. Personal boundaries are more like invisible bubbles that are different for everyone.

Even though personal boundaries can be challenging to navigate and at times uncomfortable, setting and communicating them is essential for our health, well-being, and even our safety, especially during the current environment of a global pandemic when we need to protect our mental and emotional well-being the most.

Boundaries are your own personal limits and guidelines and can be considered as a gentle partition between our needs and the needs of others. "Setting and sustaining boundaries is a skill and a critical one," says Jan Thorson, Acting Executive Director of Mobile Crisis Saskatchewan. "Boundaries give us permission to say 'no' to things that we don't wish to do, that make us uncomfortable or impact our self-esteem. Setting boundaries allows us to remain true to ourselves and our ethical beliefs."

Here are a few examples of types of boundaries:

Physical Boundaries - A physical boundary addresses the space around you. When you feel your personal space is being violated, this can make you feel uncomfortable and anxious. Being clear and firm about what is allowed in your physical space can be the difference between you feeling safe or not.

Emotional Boundaries - An emotional boundary refers to the internal, emotional experience. These boundaries may be pushed or crossed when we take and accept responsibility for another's feelings and actions, letting another's feelings dictate our own and sacrificing our own needs to please another.

Mental Boundaries - Mental boundaries refer to your personal thought process. Always seeing eye-to-eye with another person is not possible. Everyone has different experiences, but you have the right to your own thoughts, values, beliefs and opinions. It is important to give and receive respect when it comes to mental boundaries.

Time and Energy Boundaries - Setting boundaries for your time and energy are also a necessity. Time and energy boundary violations can look like being kept in a conversation longer than you planned, being requested from your boss to do more work without pay, or someone showing up significantly later than agreed upon without clearly communicating.

Material Boundaries - Material boundaries refer to personal possessions and the limits on how your items are treated, or when they can or cannot be used. If your things are being touched, or used without your permission, being stolen or destroyed then your material boundaries are in clear violation. It is your decision who you are comfortable sharing with, or if you don't want to share at all.

It's important to keep in mind that setting and honouring your boundaries and others' isn't textbook science. Boundaries can vary from person to person, and having open and honest conversations about them is crucial.

Whether you want to set clearer rules with your family, team or assert your space when it comes to strangers, here's a few tips on how to get started:

Understanding your needs, limits and values: The first step in setting boundaries is to know where your limits are. What do you need emotionally, mentally, physically? Are these needs being met? Are some situations putting your body and mind under unnecessary stress? Do some people treat you in ways you wouldn't treat them? Be honest with yourself and have some clear lines in place with yourself, so even if you can't set them first-time round, you know where you want to establish a boundary.

Focus on yourself and your rights: We can't change others, their actions nor is it our responsibility. Boundaries help change the situation for you. We can focus on what is within our control such as our boundaries, actions, behaviors, and thoughts.

We all have rights, and it's learning which ones are more important to you that will also help set your boundaries, such as:

I have the right to say no, without feeling guilty

I have the right to be treated with respect (by both myself and others)

I have the right to make my needs as important as other people's

I have the right to accept my mistakes without being hard on myself

I have the right not to meet unreasonable expectations other people may have of me

Verbalize your concern and intention: Personal boundaries teach others how we want to be treated. When we are able to communicate our needs in a way that is clear and direct, we can feel confident that we are treating the other person fairly even if they do not agree with our decisions. It is important that our intentions are consistent with our values and are reflective of our personal needs as well.

Practice Self-Care: Boundaries are a form of a self-care. When you set boundaries, you are taking care of yourself. Practicing healthy self-care habits allows you to recharge your batteries for yourself and those around you.

Setting and maintain boundaries can be difficult. If you need help, reach out for mental health support by visiting [Do More Ag resources](#).

The Do More Agriculture Foundation is the national voice and champion for mental health in Canadian agriculture and is changing the culture of agriculture to one where all producers are encouraged, supported, and empowered to take care of their mental wellbeing. Producers are among the most vulnerable when it comes to mental health issues. By collaborating with the entire industry and those working to address the state of mental health in Agriculture, we can and will make a substantial impact.

Who Should I Call?

Who at the SaskMilk office should producers call?
Here's a handy guide!

Quota Exchange

The market-clearing price established for the June 2022 Quota Exchange was \$45,000.00.

The next Quota Exchange will be held on July 15, 2022. All offers to sell and bids to purchase quota through the Quota Exchange must be submitted by midnight, July 6, 2022. SaskMilk recommends that offers and bids be submitted well in advance of the deadline date to ensure adequate time for corrections, if necessary.

When making bids on the Quota Exchange, the price on offers to sell quota is the minimum price that the producer is prepared to accept for that quota. Only if the market-clearing price is equal to or greater than the producer's minimum price will that producer qualify for participation in the Exchange. Conversely, the price on offers to purchase quota is the maximum price that the producer is prepared to pay for that quota. Only if the market-clearing price is equal to or less than the producer's maximum price will that producer qualify for participation in the Exchange. The clearing price is set at the price where the smallest difference exists between the accumulated volume offered for sale and the accumulated volume bid to purchase. The results of the Quota Exchange are outlined in the following table.

JUNE 2022 QUOTA EXCHANGE RESULTS

Market Clearing Price per kilogram of butterfat	\$45,000.00
Daily Kilograms offered to Purchase	110.00
Kilograms offered to Sell	255.41
Kilograms sold	80.00

Ag in Motion™ VIP Dairy Producer Brunch

July 21, 8:30-10:00 am

Please join us for a hearty meal,
then enjoy your day at the show sponsored by:

SaskMilk is co-sponsoring the Dairy Brunch at Ag in Motion on July 21.
Digital tickets are available for producers to get into the brunch and into Ag in Motion on July 21.

Dairy farmers can register for their free ticket into the Dairy Brunch using the following link
<https://www.tix.com/ticket-sales/aginmotion/6978?eventidlist=1271348>

Once registration is confirmed, guests will be guided to claim a FREE ticket to Ag in Motion
with the promo code: **DAIRYVIP**

Tickets are limited so please only register for tickets that you will use!

SaskMilk will also have a table in the Livestock Pavilion for the farmers and the general public to stop by and catch up on all things Dairy. Ag in Motion runs from July 19-21 at Discovery Farm, Langham.

DFC Update

The high standards of Canadian dairy production: For consumers, the proof is in proAction

Nine out of 10 Canadians recognize the Blue Cow logo as an assurance of quality. However, many of these consumers – especially Millennials and Gen-Z - want more information about the source of their dairy, including how it's produced and under what conditions. Retailers and processors want to reflect this and ensure the products they sell meet high standards. How does the Blue Cow meet these expectations? Through the proAction program!

Canadian dairy farmers use proAction to show how they adhere to some of the most stringent standards in the world. For example, sustainability is a priority for young Canadians. Dairy farmers are no different - they want to pass down the family farm to their children, just as their parents and grandparents did before them. To dispel myths about the environmental impact of the industry, more young farmers are pointing to proAction to show how they are working to care for the planet.

Dairy processors and retailers also want to meet a forward-thinking, sustainably conscious mindset head on. proAction plays an essential role in this; as consumers demand high standards, businesses making and selling dairy products will want proof that farmers are meeting or exceeding them.

Milk quality, animal care, food safety, biosecurity, traceability, sustainability - all these matter to a larger number of dairy consumers. proAction – and the famous Blue Cow logo it supports – shows how Canada's dairy farmers continue to go above and beyond when it comes to feeding our nation.
