SEPTEMBER 2026

QUOTA EXCHANGE

The next Quota Exchange will be held on **October 15, 2026**. All offers to sell and bids to purchase quota through the Quota Exchange must be submitted by midnight, **October 6, 2026**. SaskMilk recommends that offers and bids be submitted well in advance of the deadline date to ensure adequate time for corrections, if necessary.

When making bids on the Quota Exchange, the price on offers to sell quota is the minimum price that the producer is prepared to accept for that quota. Only if the market-clearing price is equal to or greater than the producer's minimum price will that producer qualify for participation in the Exchange.

Conversely, the price on offers to purchase quota is the maximum price that the producer is prepared to pay for that quota. Only if the market-clearing price is equal to or less than the producer's maximum price will that producer qualify for participation in the Exchange.

The clearing price is set at the price where the smallest difference exists between the accumulated volume offered for sale and the accumulated volume bid to purchase. The results of the Quota Exchange are outlined in the following table.

SEPTEMBER 2026 QUOTA EXCHANGE RESULTS

DFC UPDATE

Dry and Lactating Cattle Housing

Unweaned Calf Housing

Read DFC's fact sheets and learn more about new and updated proAction Housing requirements coming in April 2027

Dairy Farmers of Canada (DFC) has finalized the requirements for housing calves, dry cattle, and lactating cattle in the proAction Animal Care module, which will be part of on-farm validations starting in April 2027. More requirements will be finalized and communicated in October.

Farmers can learn more about preparing for next April by visiting the new proAction website at <https://dairyfarmersofcanada.ca/en/proaction>. Here, you can read our updated factsheets on these new requirements.

Look for the new Dashboard tool on the proAction website in October, too! It is designed to give you easy access to the requirements and help you test your readiness before an on-farm validation.
